Drum, Barrel and Pail Heaters

High-Temp Industries' drum, barrel and pail heaters can be used to thermally control stored viscous fluids. Constructed from vulcanized, flexible silicone rubber with fiberglass reinforcement, the heaters are built to be durable and long lasting, as well as resistant to moisture, ozone, fungus, radiation and chemicals. We carry a huge selection of drum, barrel and pail heaters, in 5, 15, 30 and 55 gallon sizes for use with metal or plastic, including difficult to find dual voltage models (12VDC/120VAC). In addition, we can manufacture almost any special size to meet your requirements.

Features:

- Grounded heating element with maximum operating temperature of 425°F (218°C)
- Easy adjustable temperature control
- Full coverage drum heaters feature an easy-to-use temperature controller with audible alarm
- 6-foot standard power cord SJO Type 16/3 complete with three-prong plug
- Variety of standard sizes and configure-to-order options for special vessel heaters
- 1,250 volts dielectric tested
- Ratings for metal and plastic drums, barrels and pails
- UL and CSA Approval

Applications:

- Heating to Required Temperature
- Thermal Mixing
- Viscosity Control
- Freeze Protection
- Temperature Maintenance
- Petroleum-Based Fuels and Oils
- Biofuel and Biodiesel
- Melting of Solids
