Husky Replacement Heaters

High-Temp Industries offers direct replacements for Husky heating elements. 100% interchangeable with OEM parts, all heating elements are manufactured to higher quality standards to provide superior performance, while also providing a more cost-effective option over typical Husky pricing. The elements utilize the same thermocouple and retaining caps with a tolerance of +/- 2% at 240v. Flexible element extensions terminate to standard Teflon 72 inch lead wires with moisture resistant seals to ensure longevity. All of our replacement heating elements come with a 1 year warranty against manufacturing defects and are **in stock and ready to ship**.

Incoe Replacement Heaters

High-Temp Industries offers direct replacements for Incoe Hot Runner heaters that are 100% interchangeable with OEM parts, including the acceptance of the same thermocouple via the internal 1mm x 1mm groove. All heaters are manufactured to higher quality standards, including improvements to overall performance that provides superior heat transfer and heat distribution to the nozzle assembly to provide superior performance, while also providing a more cost-effective option over typical Incoe pricing. Flexible element extensions terminate to lead wires with moisture resistant seals to ensure longevity. All of our replacement heating elements come with a 1 year warranty against manufacturing defects and are **in stock and ready to ship**.

Axial Lock-Up Mini Heaters

The mini-coil heater with our axial clamping strap allows the heating element to maintain full clamping force at elevated temperatures. Our wedge locking mechanism compensates for thermal expansion ensuring optimum performance at high temperatures. The mini coil heating element is constructed in a rectangular profile to increase surface contact of the heater and injection nozzle, resulting in superior heat transfer. Flexible element extensions terminate to standard Teflon 72 inch lead wires with moisture resistant seals to ensure longevity. Tolerances of +/- 2% at 240v. All of our replacement heating elements come with a 1 year warranty against manufacturing defects and are **in stock and ready to ship**.

DME Replacement Heaters

Designed to exceed the Original manufacturer quality, we provide direct replacement heaters for DME hot runner and sprues. Manufactured to provide unparalleled performance, while providing a more cost effective replacement element over DME pricing. Tolerances of +/- 2% at 240v. Our replacement heating elements come with a 1 year warranty against manufactured defects and are in **stock ready to ship**.

High-Temp Custom Coil Heaters

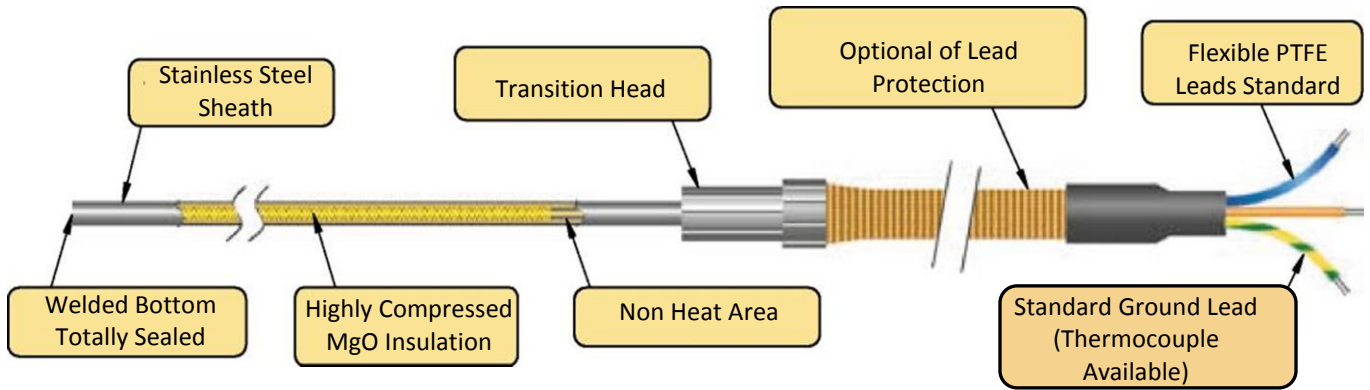

High-Temp Industries has the capabilities to supply you with virtually any shape, size or configuration of coil heater to meet your precise requirements. Our coil heaters are small-diameter, high-performance units that are fully annealed and ready to bend into variety of custom designs. The heater can be formed into a compact, coiled nozzle to supply a full 360° of heat with optional distributed wattage. Coil heaters can be utilized for just about any application that requires high heat but has space limitations. Different applications require different fabrication methods, including: one, two or four resistance wires; parallel coil or straight wire; drawn or swaged sheaths; with or without internal thermocouples; leads exiting from one or both ends; cast or embedded in brass or copper; and/or round, rectangular or square cable cross sectionals. Whatever the application, High-Temp Industries' coil heaters are a superior quality product that can be fabricated to ensure your success; all at an affordable price.

Applications:

- Plastic injection molding nozzles
- Hot metal forming dies and punches
- Sealing and cutting bars
- Medical, analytical and scientific instruments
- Restaurant and food processing equipment
- Laminating and printing presses
- Air heating
- Heating in a vacuum environment
