# Split Sheath Cartridge Heaters

High-Temp Industries' split sheath cartridge heaters are designed to provide superior conductive heat transfer and easy change-out. Our split sheath cartridge heaters provide even sheath temperatures up to 1600°F and resolve the common problem of stuck heaters. Uneven temperatures can cause the passages inside of platens and dies to curve, making it difficult to remove the heater. Our split sheath cartridge heaters are essentially tubular elements formed into a "D" shape. They are then bent back forming two independent heated legs allowing for bilateral movement of each leg separate from the other. This independent movement allows for our heaters to "fill" existing bore holes even if they have been subject to excessive wear or damage. When energized, the sections expand and improve surface contact with platens, dies, and molds; when cool, the sections contract back to original diameter for easy removal.

High-Temp Industries split sheath cartridge heaters are available in diameters ranging from .25" inches to 1" and 6mm to 25.4mm metric. Sheath lengths are available from 2 to 120 inches. Available in voltages from 12v to 480v and watt densities up to 250w<sup>2</sup> maintaining a 1 year warranty against manufacture defects. We also offer a wide assortment of terminations and lead material to meet your application demands. An optional thermocouple groove can also be added increasing the flexibility to meet your individual requirements. High-Temp Industries split sheath cartridge heaters can be fitted with any of the same termination and wire options as standard cartridge heaters. Please allow us the opportunity to meet your requirements and custom design a solution to your heating needs.

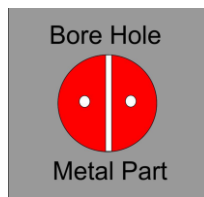

# Split Sheath Cartridge Heater Advantages

The split sheath design allows for each independent leg to bilaterally expand into existing bore holes and compensates for oversize bore holes.

Conventional cartridge heater limited in its ability to expand into bore holes.

Split sheath cartridge heater energized expands into bore hole providing superior metal to metal contact.

Split sheath cartridge heater de-energized allowing easy removal.

## Technical Specifications

# .25" Diameter Options Selection

## Lead Options

Price	No Additional Charge
-------	----------------------

### Solid Nickel Pins

Utilized in high heat applications and where there is no movement or vibration. Lead wires can be added via exterior crimps. Damaged wires can be replaced quickly.

Price	First 14"	Per Additional 12"
	No Charge	\$2.79

### Fiberglass Leads (Standard)

Pure nickel conductors insulated with 950°F fiberglass insulation.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Silicon Leads

Ideal for high-movement, limited heat applications. Can withstand temperatures up to 450°F. Provides limited protection to moisture. Requires silicon potting to be utilized.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Teflon Leads

Ideal for excessive movement and high vibration applications. Can withstand temperatures up to 450°F. Provides limited protection from moisture. Requires either silicon potting or a Teflon seal.

# .25" Diameter Options Selection

## Lead Protection Options

Price	First 12"	Per Additional 12"
	\$3.99	\$1.78

### Fiberglass Sleeving

Protection against temperatures up to 950°F while providing moderate protection against friction.

Price	First 12"	Per additional 12"
	\$9.89	\$4.15

### Braided Metal Sleeving (BMS)

Ideal for high friction and constant bending. Stainless steel construction with high flexibility.

Price	First 12"	Per additional 12"
	\$13.25	\$5.55

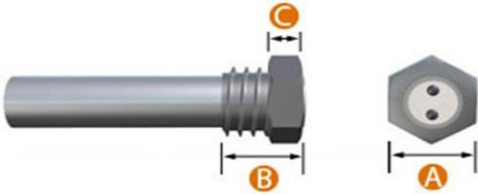

### Armor Conduit

Water resistant interlocking design allows for limited exposure to moisture. Flexibility allows an added level of protection against physical damage to the lead wires.

**We can build to your specifications!**

# .375" Diameter Options Selection

## Lead Options

Price	No Additional Charge
-------	----------------------

### Solid Nickel Pins

Utilized in high heat applications and where there is no movement or vibration. Lead wires can be added via exterior crimps. Damaged wires can be replaced quickly.

Price	First 14"	Per Additional 12"
	No Charge	\$2.79

### Fiberglass Leads (Standard)

Pure nickel conductors insulated with 950°F fiberglass insulation.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Silicon Leads

Ideal for high movement applications where there is limited heat. Can withstand temperatures up to 450°F. Provides limited protection to moisture. Requires Silicon Potting to be utilized.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Teflon Leads

Ideal for excessive movement and high vibration applications. Can withstand moderate temperatures 450°F. Provides limited protection from moisture. Requires either silicon potting or a Teflon seal.

# .375" Diameter Options Selection

## Lead Protection Options

Price	First 12"	Per Additional 12"
	\$3.99	\$1.78

### Fiberglass Sleeving

Protection against temperatures up to 950°F while providing moderate protection against friction.

Price	First 12"	Per additional 12"
	\$9.89	\$4.15

### Braided Metal Sleeving (BMS)

Ideal for high friction and constant bending. Stainless steel construction with high flexibility.

Price	First 12"	Per additional 12"
	\$13.25	\$5.55

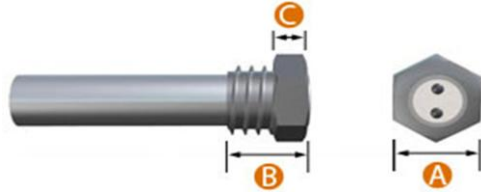

### Armor Conduit

Water resistant interlocking design allows for limited exposure to moisture. Flexibility allows an added level of protection against physical damage to the lead wires.

**All options can be added to stock items and shipped within 24 hours of ordering!**

# .375" Diameter Options Selection

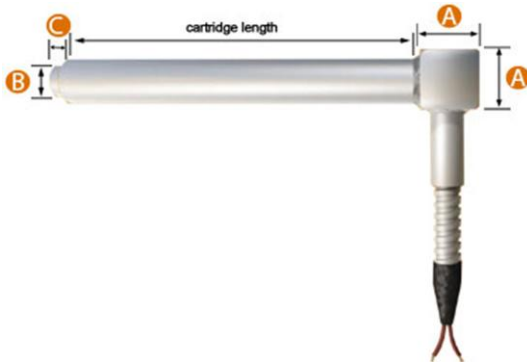

## NPT Fittings

	Stainless Steel	Brass
Price	\$15.89	\$13.97

Specifications	3/8" Diameter
A	.590"
B	.750"

# .5" Diameter Options Selection

## Lead Options

Price	No Additional Charge
-------	----------------------

### Solid Nickel Pins

Utilized in high heat applications and where there is no movement or vibration. Lead wires can be added via exterior crimps. Damaged wires can be replaced quickly.

Price	First 14"	Per Additional 12"
	No Charge	\$2.79

### Fiberglass Leads (Standard)

Pure nickel conductors insulated with 950°F fiberglass insulation.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Silicon Leads

Ideal for high movement applications where there is limited heat. Can withstand temperatures up to 450°F. Provides limited protection to moisture. Requires Silicon Potting to be utilized.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Teflon Leads

Ideal for excessive movement and high vibration applications. Can withstand moderate temperatures 450°F. Provides limited protection from moisture. Requires either silicon potting or a Teflon seal.

# .5" Diameter Options Selection

## Lead Protection Options

Price	First 12"	Per Additional 12"
	\$3.99	\$1.78

### Fiberglass Sleeving

Protection against high temperatures up to 950°F while providing moderate protection against friction.

Price	First 12"	Per Additional 12"
	\$9.89	\$4.15

### Braided Metal Sleeving (BMS)

Ideal for high friction and constant bending. Stainless steel construction with high flexibility.

Price	First 12"	Per Additional 12"
	\$13.25	\$5.55

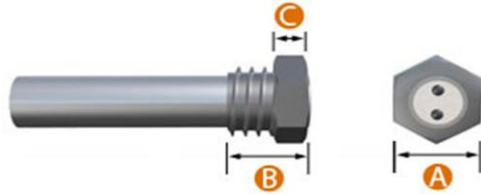

### Armor Conduit

Water resistant interlocking design allows for limited exposure to moisture. Flexibility allows an added level of protection against physical damage to the lead wires.

**All options can be added to stock items and shipped within 24 hours of ordering!**

**Do not see what you need?**

**We can build to your specifications!**

# .625" Diameter Options Selection

## Lead Options

Price	No Additional Charge
-------	----------------------

**Solid Nickel Pins**  
Utilized in high heat applications and where there is no movement or vibration. Lead wires can be added via exterior crimps. Damaged wires can be replaced quickly.

Price	First 14"	Per additional 12"
	No Charge	\$2.79

### Fiberglass Leads (Standard)

Pure nickel conductors insulated with 950°F fiberglass insulation.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Silicon Leads

Ideal for high movement applications where there is limited heat. Can withstand temperatures up to 450°F. Provides limited protection to moisture. Requires Silicon Potting to be utilized.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

### Teflon Leads

Ideal for excessive movement and high vibration applications. Can withstand moderate temperatures 450°F. Provides limited protection from moisture. Requires either silicon potting or a Teflon seal.

# .625" Diameter Options Selection

## Lead Protection Options

Price	First 12"	Per Additional 12"
	\$3.99	\$1.78

### Fiberglass Sleeving

Protection against high temperatures up to 950°F while providing moderate protection against friction.

Price	First 12"	Per Additional 12"
	\$9.89	\$4.15

### Braided Metal Sleeving (BMS)

Ideal for high friction and constant bending. Stainless steel construction with high flexibility.

Price	First 12"	Per Additional 12"
	\$13.25	\$5.55

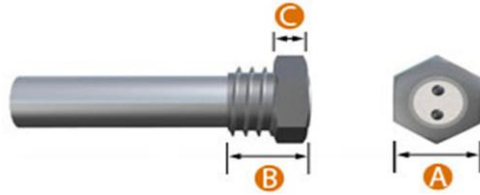

### Armor Conduit

Water resistant interlocking design allows for limited exposure to moisture. Flexibility allows an added level of protection against physical damage to the lead wires.

**All options can be added to stock items and shipped within 24 hours of ordering!**

# .75" Diameter Options Selection

## Lead Options

Price	No Additional Charge
-------	----------------------

**Solid Nickel Pins**  
Utilized in high heat applications and where there is no movement or vibration. Lead wires can be added via exterior crimps. Damaged wires can be replaced quickly.

Price	First 14"	Per Additional 12"
	No Charge	\$2.79

**Fiberglass Leads (Standard)**  
Pure nickel conductors insulated with 950°F fiberglass insulation.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

**Silicon Leads**  
Ideal for high movement applications where there is limited heat. Can withstand temperatures up to 450°F. Provides limited protection to moisture. Requires Silicon Potting to be utilized.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

**Teflon Leads**  
Ideal for excessive movement and high vibration applications. Can withstand moderate temperatures 450°F. Provides limited protection from moisture. Requires either silicon potting or a Teflon seal.

# .75" Diameter Options Selection Page

## Lead Protection Options

Price	First 12"	Per Additional 12"
	\$3.99	\$1.78

### Fiberglass Sleeving

Protection against high temperatures up to 950°F while providing moderate protection against friction.

Price	First 12"	Per Additional 12"
	\$9.89	\$4.15

### Braided Metal Sleeving (BMS)

Ideal for high friction and constant bending. Stainless steel construction with high flexibility.

Price	First 12"	Per Additional 12"
	\$13.25	\$5.55

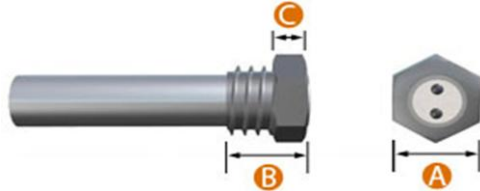

### Armor Conduit

Water resistant interlocking design allows for limited exposure to moisture. Flexibility allows an added level of protection against physical damage to the lead wires.

**All options can be added to stock items and shipped within 24 hours of ordering!**

# .75" Diameter Options Selection

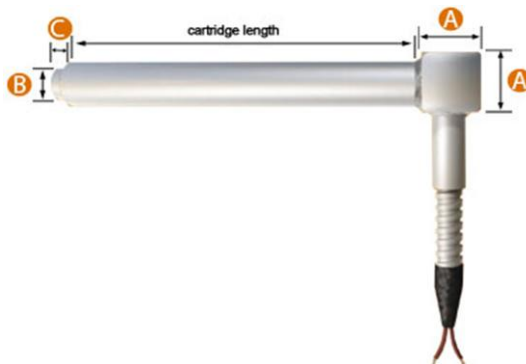

## NPT Fittings

	Stainless Steel	Brass
Price	\$27.89	\$25.97

Specifications	.75" Diameter
A	.100"
B	1.18"
C	.275"
NPT Fitting	3/4

## Right Angle Block Exit with Knockout Tab

Specifications	
A	.866"
B	.590"
C	.196"

	Right Angle Block	Knockout Tab
Price	\$30.20	\$12.73

**All options can be added to stock items and shipped within 24 hours of ordering!**

**We can build to your specifications!**

# 1" Diameter Options Selection

## Lead Options

Price	No Additional Charge
-------	----------------------

**Solid Nickel Pins**  
Utilized in high heat applications and where there is no movement or vibration. Lead wires can be added via exterior crimps. Damaged wires can be replaced quickly.

Price	First 14"	Per Additional 12"
	No Charge	\$2.79

**Fiberglass Leads (Standard)**  
Pure nickel conductors insulated with 950°F fiberglass insulation.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

**Silicon Leads**  
Ideal for high movement applications where there is limited heat. Can withstand temperatures up to 450°F. Provides limited protection to moisture. Requires Silicon Potting to be utilized.

Price	First 14"	Per Additional 12"
	\$3.73	\$1.89

**Teflon Leads**  
Ideal for excessive movement and high vibration applications. Can withstand moderate temperatures 450°F. Provides limited protection from moisture. Requires either silicon potting or a Teflon seal.

## Lead Protection Options

Price	First 12"	Per Additional 12"
	\$3.99	\$1.78

### Fiberglass Sleeving

Protection against high temperatures up to 950°F while providing moderate protection against friction.

Price	First 12"	Per Additional 12"
	\$9.89	\$4.15

### Braided Metal Sleeving (BMS)

Ideal for high friction and constant bending. Stainless steel construction with high flexibility.

Price	First 12"	Per Additional 12"
	\$13.25	\$5.55

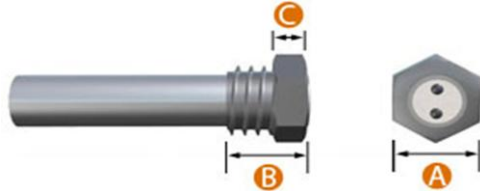

### Armor Conduit

Water resistant interlocking design allows for limited exposure to moisture. Flexibility allows an added level of protection against physical damage to the lead wires.

**All options can be added to stock items and shipped within 24 hours of ordering!**

# 1" Diameter Options Selection

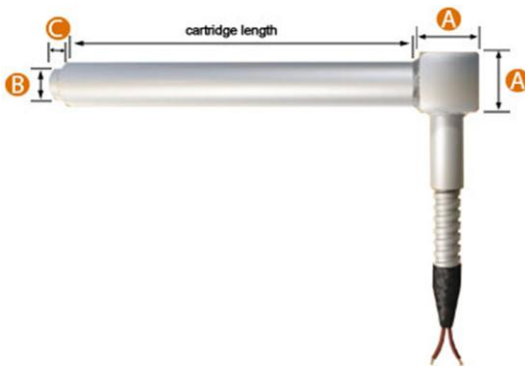

## NPT Fittings

	Stainless Steel	Brass
Price	\$27.89	\$25.97

Specifications	.75" Diameter
A	.100"
B	1.18"
C	.275"
NPT Fitting	3/4

## Right Angle Block Exit with Knockout Tab

Specifications	
A	.866"
B	.590"
C	.196"

	Right Angle Block	Knockout Tab
Price	\$30.20	\$12.73

**All options can be added to stock items and shipped within 24 hours of ordering!**

## Optional Exit Styles

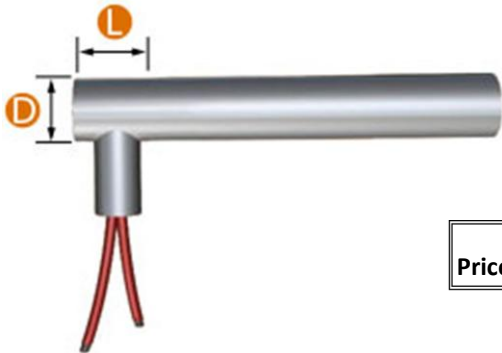

### Right Angle Exit

Price \$13.80

Specifications	
D	.75"
L	.625"

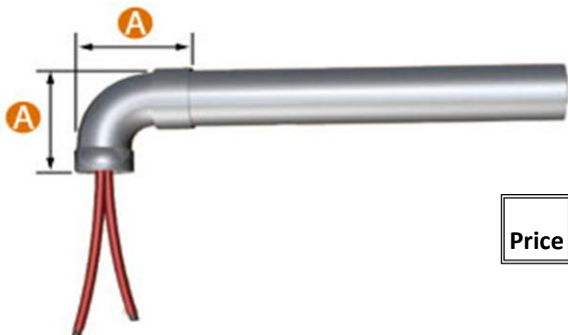

### Right Angle Exit with Stress Relief Tube

Price \$16.80

Specifications	
D	.75"
L	.625"

### Right Angle Elbow

Price \$13.80

Specifications	
A	.75"

All options can be added to stock items and shipped
